G-700

DISINFECTANT-CLEANER-SANITIZER-FUNGICIDE- MILDEWSTAT-VIRUCIDE- DEODORIZER

GENERAL: G-700 is a multiple quat-type disinfectant that kills a wide range of gram positive and gram negative bacteria and fungi. This biodegradable product cleans, deodorizes and disinfects in one operation. G-700 is a combination of non-ionic detergents, builders and germicide, thus eliminating the need for two separate products. For general purpose disinfectant G-700, at a use solution of 8 ml per litre of water (1.28 oz per gallon of water, or 1 part of G-700 to 125 parts of water) will provide 560 ppm of effective germicidal action.
